

Summary report on research accreditation

I. General information

Name of organization	Moldova State University
Organization type (<i>to underline</i>)	Research institute <u>High education institution</u> Ministerial research institute
Research mission of organization	<p>Research mission of the Moldova State University is to organize and to performance fundamental and applied scientific research oriented towards obtaining of new knowledge, developing and implementing advanced technologies for the economic, social and spiritual growth of our country.</p> <p>The MSU prepares highly qualified scientific-didactic workers, experts in a wide range of specialties for the area of scientific research and technological development, education, culture, industry and other branches of national economy and public life, destined to ensure a durable economic development of the society, to increase the well-being and the quality of life.</p>
Strategic research direction (s)	<ol style="list-style-type: none"> 1. Consolidation of the State of Law and the use of cultural heritage in the perspective of integration into multicultural and multinational Europe. 2. Economic basis of sustainable development and efficient use of human and natural resources. 3. Biomedicine and human health. 4. Agriculture and industrial biotechnology. 5. Nanotechnology, new materials and information technology.
Evaluated period	2006-2010
Web of organization	www.usm.md

II. Research capacity (annual average for evaluated period)

Total number of employees	352,4					
Number of scientific researches	330,8					
Number of researches who possess honorific titles, scientific degrees, scientific and scientific-didactical titles	ASM full members -	ASM corresp. members 4,6	Professor 101,6	Associated professor 290,6	Dr.hab. 87	Dr. (PhD) 356
Number of researches involved in international projects	FP7 5		STCU 3		Bilateral 25	
Number of young researches (under 35 years old)	Dr. (PhD) 11		PhD students 20		Others 81	
Financial resources	Public budget		International projects/grants		Research contracts	

(thousand MDL)	11069,9	2666,9	-
Distribution of expenditures (thousand MDL)	Salary 7384,8	Infrastructure development -	Other 3969,8
Expenditures for infrastructure development (thousand MDL)	Equipments 1874,32	IT infrastructure 468,58	Endowment of experimental resorts 500,0
List of 3 basic research methods, installations, technologies (per accredited field)	1. Traditional hydrochemical methods. 2. UV, VIS Spectrophotometry 3. ¹ H and ¹³ C NMR spectroscopy 4. Spray pyrolytic method 5. Luminescent spectroscopy method. 6. Optoelectronic research methods of energy spectrum 7. Mathematical modeling of images 8. Strict processing methods based on differential equations 9. Heuristic methods for processing 10. Extraction of summary protein 11. Electrophoresis in polyacrylamide gel 12. Plethysmography 13. The questionnaire 14. Content analysis - qualitative analysis of respondents' opinions 15. Examining social documents 16. Focus group method 17. Structured interview		
List of provided scientific services			
List of editorial activities	<p>The results of the scientific activity during the last 5 years are reflected in monographs, textbooks, methodological materials and scientific articles in national and international reviews, summaries of the communications at various national and international scientific meetings.</p> <p>With contribution of the university staff, the following scientific editions are printed:</p> <ul style="list-style-type: none"> - The scientific review of the State University of Moldova „Studia Universitatis” – 10 issues per year. - The collection of scientific articles of the State University of Moldova. Students work. - Moldoscopie. - National Review of Law. 		

III. Distribution of number of research projects and themes during evaluated period

Institutional projects	2006 33	2007 33	2008 31	2009 31	2010 31
Projects in the frame of State Programmes	2006 8	2007 10	2008 10	2009 11	2010 8
Technological transfer projects	2006 2	2007 1	2008 -	2009 -	2010 -
Projects for equipment procurement	2006 -	2007 -	2008 2	2009 -	2010 -

Projects for young researchers	2006 -	2007 2	2008 6	2009 4	2010 4
Projects in the frame of bilateral programmes	2006 8	2007 8	2008 9	2009 11	2010 9
International projects/grants	2006 28	2007 28	2008 15	2009 10	2010 11
List of 3 representative international projects/grants	<ol style="list-style-type: none"> 1. Development of a stable and high efficiency CdTe solar cells and PV minimodules. SCOPES project – 2006-2008, project coordinator – Tamara Potlog. 2. New bismuth – transition metal coordination compounds as molecular precursors to heterometallic oxide materials. CRDF project – 2007-2009, project coordinator – Aurelian Gulea. 3. In vivo and in vitro proteolysis of 7s and 11s seed storage proteins: functional aspects and structural analysis. CRDF project – 2006-2008, project coordinator – Andrei Shutov 4. Development of Flexible single and tandem II-VI-Based High Efficiency Thin Film Solar Cells. FP-7 project – 2009-2011, project coordinator – Tamara Potlog. 				
Research contracts	2006 1	2007 1	2008 -	2009 1	2010 -
List of 3 representative research contracts	1. Utilization of natural stones in producing materials for building and finishing. Contract coordinator – Anatol Pushneac				

IV. Scientific publications

Total number of publications abroad	Books 23	Chapters in books 32	Journal papers 633
Total number of publications in ISI journals and books	Books -	Chapters in books -	Journal papers 248
Total number of publications in the country	Books 207	Chapters in books 58	Journal papers 2250
Total number of conference abstracts	International abroad 1346	International in the country 810	National 813
List of 5 representative publications (per accredited field)	<p>• Mathematical Sciences: Theoretical and Applied Aspects</p> <ol style="list-style-type: none"> 1. Lozovanu, D., Pickl, S. Algorithms and the calculation on Nash equilibria for multi-objective control of time-discrete systems and polynomial-time algorithms for dynamic c-games on networks. //European Journal of Operational Research, Springer, 181(3), 2007, pp. 1214-1232. (IF: 1,627). 2. Lozovanu D., Pickl S. A constructive algorithm for max-min paths problems on energy networks. //Applied Mathematics and Computation, Elsevier. VII. Present/further involvement in the Seventh Framework Programme (FP7): specific programmes (Cooperation, Ideas, People, Capacities) of interest and its sub-divisions.

Currently at MSU is conducting research activities in the frame of the FP7 project – “Development of Flexible single and tandem II-VI-Based High Efficiency Thin Film Solar Cells”, FP-7 project – 2009-2011, project coordinator – Tamara Potlog.

VIII. Accredited research field and its evaluation by the National Council for Accreditation and Attestation of the Republic of Moldova (very good/good/satisfactory)

- Mathematical Sciences: Theoretical and Applied Aspects – **good**
- Actual Problems in the Field of Computer and Economic Sciences – **good**
- Physics and Engineering of Materials, Nanostructures and Devices – **good**
- Chemistry of Materials and Green Technologies – **very good**
- Biodiversity and Rational Utilization of Bioresources in Guaranteeing Biological Security – **good**
- Theoretical and Applied Linguistics; History and Theory of Literature – **good**
- Historical and Cultural Unity and Diversity in Civilizational Processes – **good**
- Social, Political and Demographic Sciences – a Support in the Development of the Contemporary Society – **good**
- The National Law and Judiciary System Associated to the International Standards – **good**
- Educational Sciences and Psychology in the Modernization of National Education – **good**

IX. Category (A/B/C) attributed by the National Council for Accreditation and Attestation of the Republic of Moldova to the organization – Category A

X. Institutional development actions planned for the next 5 years (maximum ½ page).

Actions related to the institutional development for the next five years include:

- development of informational technologies;
- permanent updating of web page of MS;
- increasing the rating of scientific journals edited at MSU;
- development of the innovative infrastructure and promoting technology transfer projects;
- promoting international projects;
- development of the technical endowment for research;
- strengthening connections between research & education, research & economic;
- increasing the number of publications in journals with ISI impact factor;
- increasing the number of contracts with local and foreign businesses;
- engagement young people in research, development and innovation activities;
- increase the level of teaching the young people through PhD and post PhD studies.
